TriTel Networks Receives Top Industry Award from Clearfly Communications

SALT LAKE CITY, UT – May 8, 2018 - TriTel Networks, a leading unified communications provider, announced today that the TriTel Networks received Clearfly's top award at the 18th Annual TAG Convention held in Rancho Bernardo, California in April. Technology Assurance Group (TAG) is an international organization of independently owned unified communications companies in the United States and Canada. Clearfly selected TriTel Networks as the winner of the Clearfly Clear Choice Award for Customer Satisfaction and SIP Deployment. TriTel Networks accepted the award that included Clearfly donating \$500 on behalf of TriTel Networks to the Bear Lake Watch.

After 2017 Clearfly analyzed a great deal of information including overall customer satisfaction, their partners ability to coordinate timely ports, their ability to move, add or install a new system with minimal to zero down time, and how frequently the partners were able to coordinate all of these tasks seamlessly. The result was very high customer satisfaction and so they chose to award their top partners. "The importance placed on one's ability to communicate

over today's IT infrastructure couldn't be more critical to a business, and we are proud to say these partners performed excellent", said Sam Johnson, Channel Account Manager for Clearfly. "Coincidentally a majority of award winners were also members of TAG." The award was received by Jay Brown, President of TriTel Networks. "We are honored to accept this award. Our TriTel Networks always strives to be on the leading edge of technology," said Mr. Brown. "Clearfly provides industry leading Session Initiated Protocol (SIP) trunking to our customers and we're proud to be their business partner."

ABOUT CLEARFLY

Clearfly Communications is a voice services and broadband provider serving a majority of the United States with a primary focus on solutions for small and medium-size businesses. At the core of Clearfly's value proposition is a suite of services comprising scalable, wire-line broadband and a traditional business phone line replacement service. Clearfly's go to market strategy is founded upon the valuable relationships with Voice and Data Integrators such as TAG Members. Clearfly recognizes and respects the reputation of the Integrator because it is the most important factor relative to the continued deployment and support of our SIP and data services.
